Import Public Holiday

IMPORT

Status

Last import: 3 months ago.
 159 imported items total.

Import

Import CSV files with one or more of these columns: name, date.
 Columns are mandatory and values in these columns are considered unique: only one entry per value in one of these column will be created.
[Download a template](#)

Delimiter

The character that delimits fields in the CSV file.
☒ No Headers
 Check if the imported CSV file does not start with a header row. If checked, mapping sources must be named '0', '1', '2' etc.

File

2016_ph_googleheets.csv
 831 bytes
 text/csv
 選擇檔案 未選擇任何檔案

Staffs can import Public Holiday from CSV to booking system (using existing module “feed”)

(4) 天津嘉里匯
